

## Creatable Colors Clear and Majolica Sampler

Tiles #1-#4 below illustrate effects achieved by brushing one or two coats of a Creatable Color over the unfired majolica base. The colors, when fired, melt into and fuse with the base to provide a colorful but soft effect.

## Porcelain Slips

Laguna Fine Porcelain Slips are ideal for dolls and other high-end porcelain applications. These liquid slips are carefully screened and ferro filtered for exceptional purity. The three white variations are semi-translucent.
