

DECORATING PRODUCTS

WAX RESIST (Mobilcer-A)

Water based wax emulsion for decorating. Glaze is resisted where wax is applied. This wax resist is an excellent, ready to use product.
LM-3016 pint gallon 5 gallons

AMMONIA BASE LATEX

Used as a "resist" or "masking" material on ceramics when glazing. Brush on greenware or bisque where you do not want glaze coverage. After glaze application the latex material can be peeled off and other treatment applied to the clean area if desired. Should only be used with adequate ventilation. Not recommended for school use - see Wax Resist above.

SOF-T CHALKS

These non-toxic, non-firing soft chalks are especially designed for easy pick-up with a brush and can be easily manipulated for blending and shading to obtain soft subtle colors that will give your ceramic or plaster piece a beautiful soft pastel finish. The kit offers 24 different colors packaged in a clear plastic box for convenience. Ship. wt. 1/2 lb.

- NFC** Set of 24 Colors: Yellow, Yellow/Orange, Orange, Ruddy Red, Red, Black, Tan, Light Blue, Turquoise, Dark Blue, Violet, Magenta, Flesh, Gray, Lime Green, Green, Dark Green, White, Dark Brown, Pink, Light Brown, Royal Blue, Brown, Orchid

TM-627 AIR PEN® 803

The Air Pen® 803 is an air-powered tool which applies ceramic glazes, paint, glues, etc. into intricate areas or in long flowing lines. This drip-free product is operated by placing a finger over the beveled flow control hole, allowing air pressure to dispense glaze through the tip. Kit includes 11 interchangeable applicator tips, sizes xx-small to x-large; 6 Quick-Change™ cartridges; cartridge holder and base for air pump; electric air pump; 6' air supply line; cleaning plungers and storage caps; complete instructions. Ship weight 2 lbs.

1 LB. 8 LBS.

- LM-363** Cerdec #1420 (brushing) replaces #175
 - LM-364** Ferro C-30 Squeegee Oil (screening)
- Prices are per pound.

LUSTERS AND METALLICS

These overglazes add jewel-like and precious metal decoration to already glazed pieces. Since the products are costly, we strongly recommend the book (BK-253) Metallics and Lustres, for proper application and firing instructions.

LAGUNA METALLICS

Laguna offers high quality European metallic lustres available in three popular colors. The 8% concentration of metal exceeds most other products on the market and provides excellent coverage and brilliant results.
